The title should preferably describe what the report is about

Candidate 1234

PGR210-1 21H Machine Learning and Natural Language Processing Exam

Kristiania University College

November 3, 2021

Introduction

Method

Structure

Use references in your text. The word2vec model by Mikolov *et al.* (2013) quickly reached wide adoption as it was particularly suitable for comparisons between short documents.

your

The phrase "term specificity" as introduced by Jones (1972) is essentially what is computed with the *inverse document frequency (IDF)*.

chapters

Results and discussion

Structure

Use math type for equations (if it is important to show them).

$$E = mc^2$$

your

Enumerate figures and tables.

chapters

Use header and footer for information on author, context, and page numbers, respectively.

Conclusion
